**ABOUT THE MINNESOTA MILITARY FAMILY  
FOUNDATION**

The mission of the Minnesota Military Family Foundation is to provide timely financial assistance to deployed and currently serving Minnesota military personnel and their families - which includes active duty, National Guard and reserve components, across all services - who have a financial crisis that is not supported by existing state or federal programs. The Minnesota Military Family Foundation is a 100% volunteer organization. The MMFF is a community-supported fund founded in November 2004.

Contributions are made by people who understand that there are many sacrifices that military families make and want to help soften the financial hardships that may occur, especially when a family member is deployed, by providing a financial safety net. For more information go to
